

Global Learning Pathway

Welcome to the **NEW** IAP2 Global Certificate in P2/Engagement

We are very excited to announce the new IAP2 Global Certificate in P2/Engagement, following two years of development and a global consultation.

Taking the best of stakeholder and engagement training from around the globe, our team has developed a new suite of courses, which can be combined in a variety of ways to create the new five-day certificate programme.

Build your own certificate that best suits your needs and interests with one foundational and compulsory module. Choose either **Fundamentals of P2/Engagement** if you are a practitioner working as a member of a P2/engagement team, contributing to engagement activities, or **IAP2 Way in Challenging Contexts** if you are a practitioner with substantial engagement experience.

Add both **Designing and Leading Engagement** (2 days) and **Applying Methods** (2 days) to complete your Global Certificate in P2/Engagement. Alternatively, choose either of these two-day modules and top up with a range of electives to add up to 5 days and complete your Global Certificate in P2/Engagement.

Stay tuned for Electives, which will be progressively introduced over time.

If you are a past training participant, we have options in place so you don't miss out on being able to attain the new certificate.

“

Public participation seeks input from participants in designing how they participate”
